

## Work Assignment #1 Assessment Results

The results considered all the WA#1 deliverables, implementation checking and code verification or validation, as well as, verification of experimental runs (w/ adaptations, and punctual corrections at verification time. It includes complementary clarifications that have been requested to students.

All implementations can be object of oral discussion or students defense if required by students. In this case, the oral evaluation and student's argumentations will overlap (positively or negatively) the result, becoming the final evaluation.
